

Cold ■ Flowing ■ Quick ■ Long lasting

FIXASPHALT

Independent, trouble-free repair of damaged road surfaces using Fixasphalt

How to do it?

1

Clean the damaged place and apply tape to the surface fragment to be repaired

2

Mix Fixasphalt

3

Pour Fixasphalt and spread it

4

After approx. 15 minutes you can drive on the surface

You can see the advantages very clearly:

- Quick filling of gaps in the surface – processing time 5-10 minutes
- Limited inconvenience to traffic – traffic is restored after approx. 15 minutes
- Cost savings thanks to precisely planned usage of material
- Seamless connection at joints – the mass can be applied at 0 mm
- Excellent initial roughness and permanent adherence
- Cost-effective repair thanks to long-term durability of the product

Applications:

- Defects in road surfaces, cracking, seams, bumps, roughness
- Surfaces with open pores and porous surfaces – cavities in mortar and aggregate chips (defects caused by winter)
- Repair of defects caused by insufficient concentration
- Levelling covers of access pits, storm grooves, water dampers etc. after adjusting works
- Filling in unevenness in a variety of profiles
- Repair of cracked places and driveways

FIXASPHALT is an environment-friendly cold asphalt with fine aggregate added for repair of damaged asphalt and concrete surfaces – quick, professional, long lasting and without high expenditure.

FIXASPHALT consists of special bituminous emulsion, aggregate with grain 0/3 and cement. Individual components are delivered in closed containers. Before application, they are mixed with water.

Applying the **Fixasphalt** mix on asphalt and concrete

Crack in asphalt surface:

Material: 1 container of Fixasphalt
Time: 10 minutes of working time

BEFORE

AFTER

Passages:

Material: 2 1/4 containers of Fixasphalt
Time: 30 minutes of working time

Defects caused by insufficient concentration:

Material: 1/2 container of Fixasphalt
Time: 15 minutes of working time

Effluent pits in concrete:

Material: 2 containers of Fixasphalt
Time: 15 minutes of working time
